

Fred J. Brechtel

VP for Research
Brechtel Manufacturing Inc.
1789 Addison Way
Hayward, CA 94544
fredj@brechtel.com
(office) 510.732.9723
(fax) 510.732.9153
(cell) 510.589.4564

Visiting Associate
California Institute of Technology
Dept. of Chemical Eng. MS 210-41
Pasadena, CA 91125
fredb@caltech.edu
(office) 626.395.3194
(fax) 626.796.2591
(lab) 626.395.4476

Research Interests:

- Development of New Aerosol Sampling Technologies
- Optical Properties and Atmospheric Chemistry of Aerosols
- Ambient Aerosol Process Studies Using Research Aircraft
- Hygroscopic and Cloud Nucleating Properties of Atmospheric Aerosol

Degrees:

- Ph.D. in Atmospheric Science, College of Engineering, Colorado State University, September 1998.
- M.S. in Mechanical Engineering, University of California at Berkeley, 1992.
- B.S. in Mechanical Engineering, University of California at Berkeley, 1987.

Honors and Awards:

- Invited Researcher Institute for Tropospheric Research, Leipzig, Germany 1996, 2000, 2001, 2002, 2003
- EPA STAR Graduate Student Fellowship 1995-1998
- NASA Global Climate Change Fellowship 1994
- Colorado State Fellowship 1993-1994
- NASA Space Grant Fellowship 1992-1993
- Alumni Scholarship U.C. Berkeley 1983, 1987

Major Funding Sources:

- **"A Broad Spectrum Mobility Analyzer for Aerosol Number Size Distribution Measurements"**, National Science Foundation Phase-II SBIR, PI, 2007-2009.
- **"Development of a Compact Aerosol Instrumentation Suite for Unmanned Aerial Vehicles"**, NOAA-OAR Phase-I SBIR, PI, 2006-2007.
- **"A Broad Spectrum Mobility Analyzer for Aerosol Number Size Distribution Measurements"**, National Science Foundation Phase-I SBIR, PI, 2006.
- **"Development of a Low Pressure-Drop Flow Control System for the NOAA Cessna Research Aircraft"**, NOAA PMEL, PI, Nov. 2005.
- **"A Versatile Droplet Sizing Spectrometer for Aerosol Hygroscopic Growth Measurements from Research Aircraft"**, Office of Naval Research Phase-II SBIR, PI, 2004-2007.

- **"Development of a Particle Into Liquid Sampler for the NOAA Cessna Research Aircraft"**, NOAA PMEL, PI, Jan.-April 2005.
- **"Development of a Particle Into Liquid Sampler for the CIRPAS Twin Otter Research Aircraft"**, California Institute of Technology, PI, Jan.-Aug. 2004.
- **"Development of an Electrical Mobility Sizer for the NOAA CMDL Research Aircraft"**, NOAA CMDL, PI, Sept. 2003-Dec. 2004.
- **"Establishing the Linkages between Particle Physical, Chemical, and Optical Properties at the Kosan Supersite during Aerosol Characterization Experiment (ACE-Asia)"**, National Science Foundation, PI, Aug. 2003 - July 2005.
- **"A Versatile Droplet Sizing Spectrometer for Aerosol Hygroscopic Growth Measurements from Research Aircraft"**, Office of Naval Research Phase-I SBIR, PI, 2003.
- **"Construction and Testing of a New Airborne Aircraft Particle Inlet System for the Gulfstream-1"**, Pacific Northwest National Laboratory, PI, 2002.
- **"Design and Evaluation of a New Airborne Aircraft Particle Inlet System for Quantitative Sampling of Particulate Organics"**, Brookhaven National Laboratory, PI, 2002-2003.
- **"Chemistry and Microphysics of the Troposphere: Ambient Aerosol Size Distribution and Size-Resolved Water Uptake Measurements during ACP Field Campaigns"**, Atmospheric Chemistry Program, Dept. of Energy Grant # EE-484-EECA, Principal Investigator, 2000-2004.
- **"Multiple Humidity Tandem Differential Mobility Analyzer"**, Brookhaven National Laboratory Laboratory Directed Research and Development Program #00-25B, PI, 2001-2003.
- **"Aerosol Measurements at Cheju Island During ACE-Asia: Aerosol Number Size Distributions, Particle Hygroscopicity, and Individual Particle Size and Chemical Composition"**, NOAA Global Change Research Program # ACE-BNL, PI, 2000-2001.
- **"Aerosol Properties as a Function of Temperature, Composition, and Size"**, Atmospheric Chemistry Program, Dept. of Energy Grant # EE-483-EECA, Co-PI, 2000-2004.
- **"Development of a Versatile Aircraft Mass Spectrometer for Organic Aerosol Analysis"**, DOE SBIR with Aerodyne Research Inc., Co-PI, 2000-2003.
- **"Chemistry and Microphysics of the Troposphere: Nanoparticle Size Distribution"**, Atmospheric Chemistry Program, Dept. of Energy Grant # EE-484-EECA, Principal Investigator (original awardee Rodney Weber), 1998-2000.

Post-Doctoral Research Associates Supervised:

- Gintautas Buzorius (Twin Scanning Electrical Mobility Sizer, Texas 2000, ACE Asia, RH Scanning HTDMA)
- Timothy Onasch (joint with Dan Imre)(Nano-HTDMA)
- Jeong-Ho Han (joint with Dan Imre) (Nano-HTDMA)

Major Field Research Experience:

- **GOMACCS-TeXAQS**, Houston, TX, August 2006: Deployment of airborne particle-into-liquid sampler on CIRPAS Twin Otter aircraft and ambient chemical composition measurements.
- **ICARRT**, Cleveland, OH, July 2004: Deployment of new airborne particle-into-liquid sampler on CIRPAS Twin Otter aircraft and ambient chemical composition measurements.
- **Northeast Aerosol and Oxidant Study**, Worcester, MA, July-Aug. 2002: Deployment of new aircraft inlet system and airborne electrical mobility size distribution measurements.
- **Aerosol Characterization Experiment - Asia**, Cheju Island, Korea, March-May 2001: Supersite Coordinator. Conducted measurements of ambient size distributions, size-resolved water uptake, and coupled humidified-DMA/Time-of-Flight Mass Spectrometry on Asian dust aerosols. Convener of supersite session at ACE data workshops, Pasadena, CA and Boulder, CO.
- **Texas Air Quality Study 2000**, Houston, TX July-Sept. 2000: Performed airborne and ground-based (tall building) scanning size distribution measurements under urban-polluted conditions during EPA-sponsored supersite study.
- **Northeast Oxidants and Particulate Study**, Philadelphia, July-August 1999: Performed measurements of 4-800 nm particle size distributions during DOE research aircraft flights over Philadelphia.
- **EPA Atlanta-1999 Supersite Experiment**, August 1999: Participated in first field deployment of semi-continuous sub-2.5 μm Particle-Into-Liquid Sampler (PILS) for ambient particle chemical composition measurements in collaboration with Georgia Institute of Technology.
- **Hohenspeissenberg Aerosol Formation Experiment**, May-June 1999: Conducted measurements of ambient 3-10 nm particle size distributions in rural Germany using a modified pulse-height ultrafine condensation particle counter in collaboration with the Institute for Tropospheric Research, Leipzig, Germany.

- **First Aerosol Characterization Experiment**, Nov.-Dec. 1995: Conducted atmospheric aerosol size distribution and chemical composition measurements on MacQuarie Island, Tasmania during ACE 1 in collaboration with NOAA, the CSIRO Division of Atmospheric Research, the Australian Antarctic Research Expedition, and the National Institute for Water and Atmospheric Research, New Zealand.
- **ACE 1 Condensation Particle Counter Calibration Workshop**, Aug. 1995: Calibrated 26 TSI condensation particle counters for use during ACE 1.
- **Niwot Ridge Aerosol Monitoring Study**, Dec. 1994-Aug. 1995: Conducted ambient aerosol size distribution, light scattering, chemical composition, and volatility tandem differential mobility analyzer measurements at the University of Colorado Mountain Research Station on Niwot Ridge, CO in collaboration with investigators at NOAA.
- **Cloud and Aerosol Characterization Experiment**, Jan.-May 1993: Conducted measurements of size-dependent cloud droplet chemical composition and eddy flux of cloud droplets to a forest canopy at Cheeka Peak, WA in collaboration with the University of Washington.

Professional Experience:

02/02- **Research Scientist, Brechtel Mfg. Inc.,**

Present Development of new hygroscopic growth measurement technology. Developed new aircraft sampling inlet system for DOE and other research aircraft. Collaboration with Institute for Tropospheric Research on new hygroscopic growth measurements. Analysis of aerosol observations from Gosan Supersite during ACE-Asia.

11/02- **Visiting Associate, California Institute of Technology**

Present Assist in performance of smog chamber studies at Caltech. Development of new aerosol measurement technologies.

- 10/98 - 2/02 **Associate Scientist, Environmental Sciences Department, Atmospheric Sciences Division, Brookhaven National Laboratory**
Developed new Twin-DMA-based scanning size distribution measurement system for DOE aircraft. Deployed instrumentation on-board aircraft and at ground-based stations during field studies in Philadelphia, Houston and Korea. Developed new size-resolved scanning water uptake system and performed first simultaneous measurements of particle size, hygroscopic growth and chemical composition with integrated HTDMA/Mass Spec system.
- 8/93 - 9/98 **Research Associate**, Colorado State University
Supervisor: Sonia Kreidenweis. Completed Ph.D. in Atmospheric Chemistry. Teaching assistant for graduate level Atmospheric Inorganic and Organic Chemistry course (AT 621).
- 7/91 - 7/92 **Graduate Student Researcher**, Oregon State University, Corvallis, OR.
Supervisor: Richard Vong. Deployed FSSP, PVM and sonic anemometer during NSF-sponsored cloud droplet deposition study at Cheeka Peak Observatory.
- 8/90 - 12/91 **Graduate Student Researcher**, University of California at Berkeley
Supervisor: Ken Fowler. Performed supercomputer simulations of fusion reactor neutron activation and critical heat transfer analyses.
- 2/88 - 8/90 **Research and Design Mechanical Engineer**, Varian Associates Radiation Division, Palo Alto, CA. Managed prototype collimator development project. Developed prototype radiation focusing aperture for cancer therapy equipment.
- 6/86 - 8/86 **Laboratory Technician**, Stanford University, Stanford, CA.
Managed ultra-high vacuum and RF brazing system development project.
- 6/85-8/85 **Mechanical Technician**, Electrofusion Corp., Fremont, CA.
6/83-8/83 Hot forming of Be metal for use as satellite support struts;
6/81-8/81 ultra-high vacuum leak detection of electron beam welded
6/80-8/80 parts; chemical etching and cleaning of various metals.
- 6/84-7/84 **Apprentice Machinist**, B and H Machining, Redwood City, CA.
Machined alumina ceramics to precision tolerances.
- 6/82-8/82 **Apprentice Machinist**, Sieger Engineering, So. San Francisco, CA.
Machined steels to precision tolerances.
- 9/85-5/86 **Study Group Leader**, Student Learning Center, UC Berkeley
9/87-12/87 Undergraduate calculus instructor. Managed project implementing new educational techniques.

Professional Memberships:

- American Meteorological Society. Member 2001-present.
- American Geophysical Union. Member 1995-present.
- American Association for Aerosol Research. Member 1994-present.
- American Chemical Society. Member 1997-present.

Experimental Expertise:

- Extensive ground and aircraft-based experience measuring aerosol size and concentration using the Differential Mobility Analyzer (DMA), Ultrafine and Condensation Particle Counters (UCPC & CPC), Aerosol Generation Systems, Humidified Tandem Differential Mobility Analyzer (HTDMA), Cloud Condensation Nucleus Counter (CCNC), PCASP-100, FSSP-100, Particulate Volume Monitor (PVM-100), and PC-based data acquisition hardware and software.
- Characterization of aerosol chemical composition using Semi-Continuous Particle-into-Liquid Sampler (PILS), Micro-Orifice Uniform Deposit Impactor (MOUDI), Berner Low-Pressure Impactor, bulk filter samplers, annular gas denuders, and size-segregating cloud droplet samplers. Droplet and aerosol eddy flux measurements using simultaneous sonic anemometer, FSSP and PVM observations.

Personal Information:

- Born 8/12/65, Oakland, California
- Fluent in German and Spanish
- Citizenship: U.S.A.
